## Internal Vibrators - High Frequency **IRFU58/230/15 58mm Head 15m Shaft Internal Vibrator**

The IRFU58/230/15 is a powerful internal vibrator with an extra-long shaft for reaching ultra-deep concrete pours for superior compaction. Maintenance is significantly reduced as there are no drive shafts or greasing required.

- 58mm diameter head for superior concrete compaction: Ensures thorough compaction, even in dense concrete mixes.
- Extra-long 15 meter shaft for ultra-deep pours: Reaches the bottoms of deep concrete pours for uniform consolidation.
- Powerful motor for efficient vibration: Creates strong vibrations to effectively eliminate air voids.
- Durable construction for long-lasting performance: Built to withstand tough jobsite conditions.
- Ideal for exceptional deep concrete consolidation applications: Perfect for deep foundations, pile caps, and very thick slabs.

### Specifications

- Model - IRFU58/230/15
- Item No.- 5100040887
- Lead Length - 15 Meters
- Length - 15 Meters
- Voltage - 230v
- Head - 58mm

The IRFU58/230/15 internal vibrator is a heavy-duty tool designed for exceptional concrete consolidation in ultra-deep pours. Its large 58mm diameter head ensures superior compaction throughout the concrete. The extra-long 15-meter shaft allows for reaching the bottoms of even the deepest concrete elements. This internal vibrator is ideal for large-scale construction projects with exceptionally deep foundations, pile caps, and thick concrete slabs.
