Concrete Vibrators - HMS Modular
**H65 Vibrating Head 65mm
- round nose cap**

The H65 is an extra-heavy duty vibrating head (65mm cap) for superior consolidation in the deepest concrete pours.

- Largest 65mm cap for extra-deep reach: Reaches unmatched depths in concrete for superior consolidation.
- Replacement part for concrete vibrators: Compatible with various concrete vibrator models.
- Extremely powerful vibrations for effective compaction in thick concrete: Ensures thorough consolidation even in challenging pours.
- Easy to install for continued vibrator use: Maintains the functionality of your concrete vibrator.
- Maximizes consolidation effectiveness in deep concrete applications: Delivers exceptional results in deep and demanding projects.

Specifications

- Model - H65
- Item No.- 5000006571
- Fits - S Shafts
- Head - 65mm

The H65 vibrating head is an extra-heavy-duty replacement part for concrete vibrators used in construction applications. Featuring the largest diameter round nose cap (65mm) among H-series heads, it's ideal for efficient consolidation in the deepest concrete pours. The extremely powerful vibrations ensure effective penetration and eliminate air bubbles throughout the concrete, even in the thickest layers. This easy-to-install replacement head ensures continued smooth operation of your concrete vibrator and maximizes consolidation effectiveness, especially for the most demanding deep concrete work.
